Durable mesh provides insect protection without obscuring your view

The perfect combination of solar shading and fresh air ventilation

The Infinity can cover any oversized door width

Provides solar protection to keep your interior cool

Screening without limits

Keep your home cool and fresh without the intrusion of pests with Phantom Screens' retractable door screens. Engineered to the highest standards, the Infinity door system can be installed in all oversized openings from patios and terraces to balconies and garden rooms. The system allows you to enjoy the view and let fresh air into your home whilst keeping unwelcome visitors and the sun's rays at bay. All screens are professionally installed by your local design and fitting expert and come in range of options which are both practical and stylish.

- Phantom Screens' high quality components ensure years of trouble-free operation.
- The Infinity allows screening of large openings to make outdoor living spaces more comfortable.
- Wire tension system ensures screens operate smoothly.
- Low profile bottom rail means you don't need to step over it.
- Our durable pleated mesh technology resists sagging and tearing.
- Each panel can be opened independently providing easy access.
- Low profile housing blends in with your existing door frame.
- All screens come with a Phantom Lifetime Warranty.

A. Single Panel

Max width: 0.5m-1m
Height: 1m-3m

B. Multiple Panels

Max width: Unlimited
Height: 1m-3m

Colours

Infinity screens are available in white, silver or dark bronze to match the majority of bi-fold doors.

Mesh

Infinity features our fold-away pleated black 18/16 mesh which provides insect protection and up to 40 per cent solar shading.
